## PROFESSIONAL SUMMARY

Operations executive who builds. By day I serve as VP & Chief of Staff for Legal Technology and Resiliency Technology at JPMorgan Chase, owning a \$36M, nine-product portfolio — strategy, P&L, capacity planning, and executive reporting for 100+ technologists. Through my studio, NightPivot, I also design, code, and ship production AI web applications end-to-end: Python/FastAPI and Postgres backends, LLM integration, and polished Next.js frontends, all live and in use today. Ten+ years leading technology operations across financial services and energy, now paired with hands-on full-stack engineering — I can pressure-test a roadmap in the boardroom and ship the working product myself.

## CORE COMPETENCIES

**Operations & Leadership:** Strategic Planning · P&L and Budget Management (\$36M+) · Portfolio & Product Operations · Talent Management · KPI Reporting & Analytics · Executive Communications

**Engineering & AI:** TypeScript / Next.js / React · Python / FastAPI · PostgreSQL / Supabase · LLM Integration (Claude, GPT) · Stripe / Twilio / Resend · AWS · CI/CD on Vercel

## TECHNICAL PROJECTS — NIGHTPIVOT (FOUNDER) · 2024 – PRESENT

*Solo designer, engineer, and operator of production SaaS products — portfolio with live demos at [clarkport.vercel.app](https://clarkport.vercel.app)*

- **AuthMatch AI** — HIPAA-aligned prior-authorization co-pilot that matches cases to Medicare coverage policy and surfaces met/not-met criteria. Built a PHI-isolated three-tier architecture (Next.js proxy handling no PHI; Python/FastAPI service for PHI, LLM, and OCR processing; Supabase with row-level security and audit-log triggers), designed around CMS-0057-F turnaround requirements.
- **Prepera** ([preperahq.com](https://preperahq.com)) — AI-powered job-search platform: application tracking, resume optimization, interview coaching, and salary-negotiation support. Next.js, TypeScript, Supabase/Postgres, LLM pipelines. Live in production.
- **Dupar's BBQ** — full-stack commerce site for a Houston catering business: mobile menu, multi-step quote builder, Stripe deposit checkout, owner admin dashboard, and automated email/SMS notifications (Resend, Twilio). Replaced the client's PDF-menu-and-voicemail ordering process; live and processing real orders.
- **Gen4Me** ([gen4me.com](https://gen4me.com)) — developer tool that turns a one-line product idea into a research-backed PRD and tailored AI-agent context files, grounded in the user's real stack.

## PROFESSIONAL EXPERIENCE

### JPMorgan Chase

Houston, TX · 2019 – Present

#### **Vice President, Chief of Staff — Legal Technology & Resiliency Technology**

- Own the portfolio of 9 Legal Technology products as strategic right hand to division leaders, aligning group priorities with enterprise objectives across senior partners, managing directors, and cross-functional teams.
- Led the transition from a project-based to product-focused operating model, cutting deployment cycles by 30% and increasing stakeholder satisfaction by 25%.
- Partnered with the CTO and CIO offices on cross-practice strategic initiatives including hybrid cloud adoption, delivering \$3M in cost savings and 30% scalability improvement through AWS integration.
- Own P&L reporting and design customized KPIs and dashboards with Finance, delivering monthly briefings to the Legal CFO on budget performance, variance, and resource allocation across a \$36.2M portfolio.
- Lead resource management and capacity planning for 100+ technology professionals across multiple offices, balancing workloads to maximize utilization and close performance gaps.
- Manage the full talent lifecycle — recruiting, onboarding, and professional development — achieving 95% retention through targeted mentoring and morale initiatives.

- Run quarterly business reviews, town halls, and portfolio reviews, delivering executive-ready materials to the General Counsel and senior leadership.

## **CSAT Solutions**

Houston, TX · 2018 – 2019

### **Senior IT PMO Business Partner — Apple & Dell Technologies**

- Designed workflow automation and process improvements that cut manual intervention by 25% and sped processing times by 18% across multiple practice groups.
- Built real-time operational dashboards and performance tracking tools, improving leadership visibility and driving a 15% increase in client satisfaction.
- Led a digital transformation initiative integrating automation and cloud solutions, delivering 40% efficiency gains and \$5M in annual cost savings.
- Ran cross-practice coordination across Apple and Dell engagements as the operational point of contact between technical teams, leadership, and external stakeholders.

## **NRG Energy**

Houston, TX · 2016 – 2018

### **Project Manager & Implementation Consultant — Retail Energy Operations**

- Designed and implemented SAP billing solutions that reduced operational costs by \$500K annually while improving customer satisfaction by 30%.
- Rolled out PCI-compliant payment systems for solar energy products, coordinating compliance, operations, and technology teams for secure, regulation-adherent transaction processing.
- Built centralized knowledge repositories and document management systems that reduced call handling time by 20% and improved first-call resolution.
- Managed strategic operational initiatives driving a 50% increase in process efficiency across retail operations.

## **CenterPoint Energy**

Houston, TX · 2015 – 2016

### **Project Manager & Business Analyst — Energy Infrastructure & Telecommunications**

- Delivered the \$29.4M Fiber Expansion Program, managing multi-office coordination and capital planning while increasing communication infrastructure throughput by 40%.
- Led the \$3.7M Cell Relay Growth initiative across cross-departmental stakeholders on scope, budget, timing, and quality.
- Designed customized financial tracking and reporting tools for \$8M in capital projects, reducing cost variances by 15%.

## **United States Army**

San Antonio, TX · 2011 – 2015

### **Intelligence Analyst**

- Prepared and delivered classified intelligence briefings to senior leadership, recognized for synthesizing complex information into actionable recommendations.
- Supervised and mentored junior analysts through structured training, performance evaluations, and career development.
- Managed tracking systems and resource allocation for intelligence operations across multi-office environments.

## **EDUCATION**

---

**M.S., Management Information Systems** — Texas Southern University, Houston, TX · 2018

**MBA, Business Administration & Management** — West Texas A&M University, Canyon, TX · 2016

**B.S., Business & Accounting** — University of Phoenix · 2014

## **CERTIFICATIONS**

---

Project Management Professional (PMP), 2016 · Professional Scrum Master (PSM I), 2017 · AWS Certified Cloud Practitioner, 2023 · Certified FinOps Practitioner, 2023
